

INAQUA

Showering | Taps | Accessories

Welcome to the new inaqua showering, brassware, mirrors & accessories brochure.

In this brochure we are introducing our new & improved concealed shower valve which has also been added in to all our shower kits.

We have also extended our range of drench showers and bar showers as well as adding new taps, accessories and mirrors

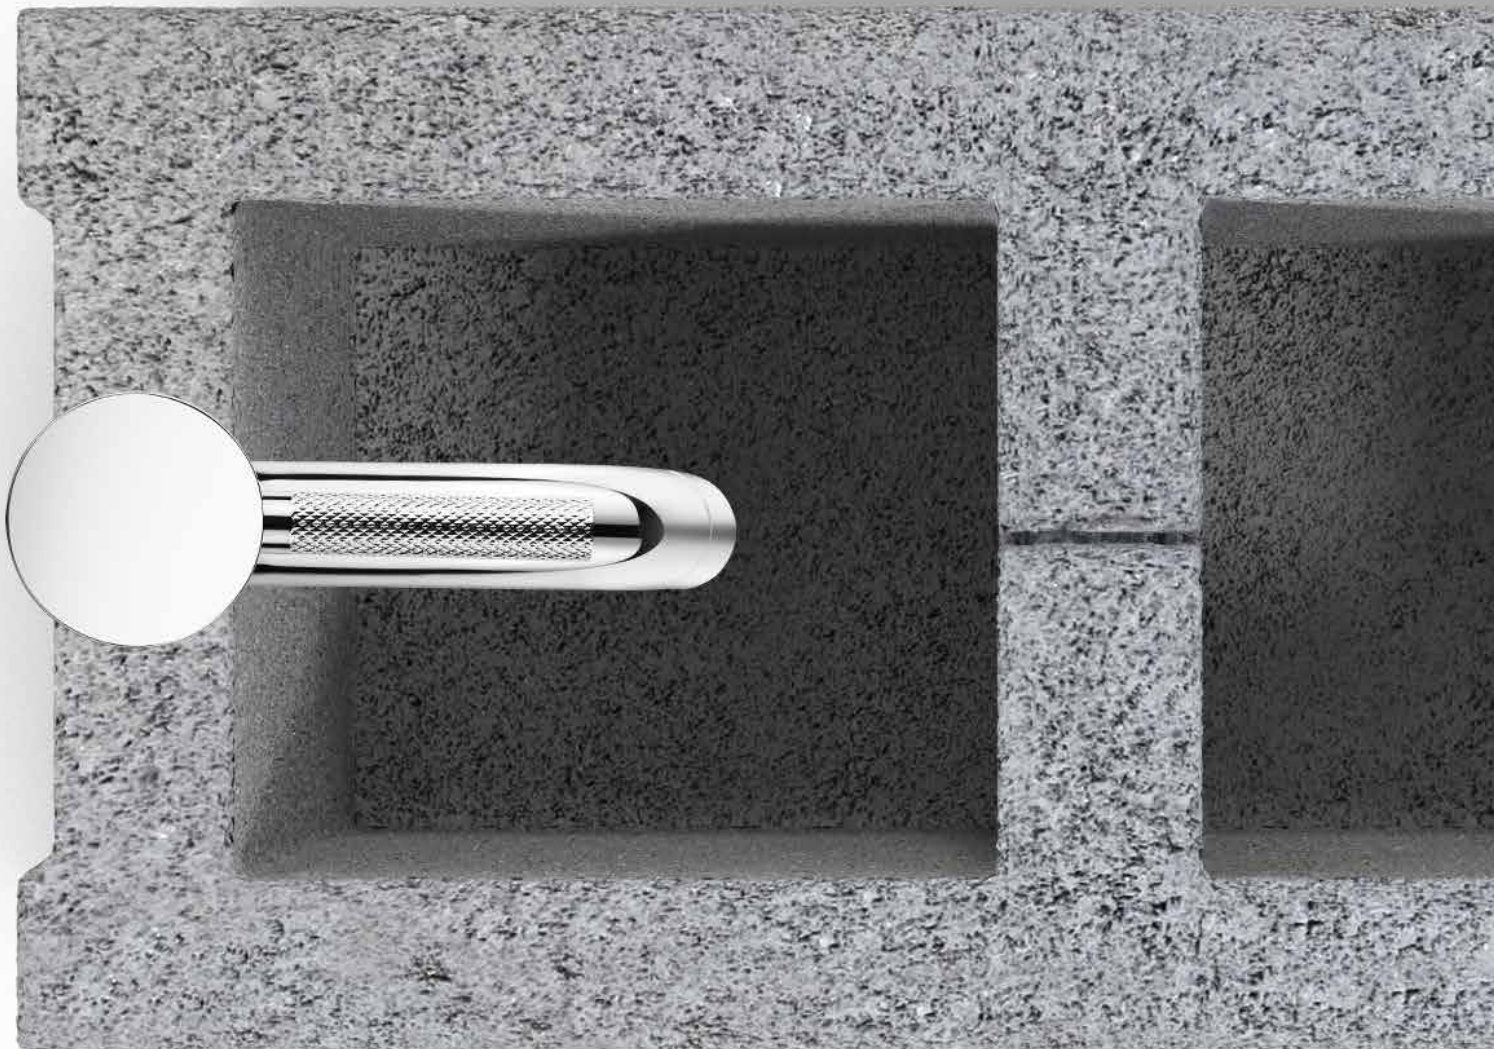

We show many concealed & exposed shower kits in this brochure to inspire you in your shower selection but you can also create your own design

Decide if you want a concealed or exposed shower, select your showerhead and / or slide rail or handset kit and we will make your personalised shower for you.

inaqua select **create your own look**

**See page 112**

# Guarantee

inaqua showers & showering components, brassware and accessories are guaranteed for 10 years. Shower and Tap cartridges are guaranteed for 2 years.

inaqua mobility and washroom items are guaranteed for 10 years for a domestic installation and 5 years for a commercial application.

inaqua mirrors are guaranteed for 5 years.

8 L/M Maximum Flow Adapter for Handsets / Showerheads (1/2" Internal Thread)

To save water but maintain an optimum showering performance we recommend regulating handsets to 6 L/M

To save water but maintain an optimum showering performance we recommend regulating heads to 8 L/M

At INAQUA we believe that great design should operate in perfect harmony with the environment.

This is why we design products that don't just look beautiful and perform exceptionally, but also can use significantly less water. Lowering your water usage shouldn't mean lowering your standards.

We produce a range of intelligent eco-friendly water saving products that by saving water also reduce heating costs that will be seen in your heating bill.

Our ranges are ideal for commercial projects such as hotels, housing, restaurants, health clubs, offices etc and equally relevant for home usage.

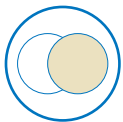

We can regulate basin mixers to under 2L/M, hand showers to 6L/M & rain showers to 8L/M.

We can assist you in gaining LEED points for commercial projects and show you the best water efficient products, whilst managing the expectations of the home owner / user.
